“ So sorry to just be hearing about this. It was a shock to me. Monica and my path's criss-crossed intermittently over the years at CHOP, and she was an amazing nurse who I respected so much. So sad. I am at a loss for words to say more

“ Monica was always so kind, constructive, and encouraging of newer nurses in an environment that was so often the opposite. She was a gem.

“ Monica was a bright spot in my work in the ED; I loved when I heard her voice on the other end of a transport call. She always took such extraordinary care of the patients, and she always made time to ask about my family or check in on how things were going. I will really miss her

“ As a young researcher at CHOP, Monica was always so welcoming and patient in educating me about how trauma and injury prevention looked on the front lines. So passionate about her work - such dedication to keeping kids safe!

“ Quite a few years back we did an Autism walk and Mon was trying to get me to recall, apparently something hysterical that happened when we were younger. What?, I still can't recall. I do recall her big beautiful smile and infectious laughter. It's what I look forward to seeing again one day. Love to the family.

“ Hey Mon, you were way to young to leave us, the last thing you said to me was please take care of Matthew & Daniel, which you can rest assured I will. Try not to haunt me to much:-) David

“ I had the pleasure of seeing Monica in action in many venues at CHOP over the years, as a practitioner, teacher and researcher, and always with fierce determination to do her best for keeping kids safe. This determination even traveled to Sofia, Bulgaria (!) about 1993, where she taught PEM nursing skills alongside Kate O'Neill to Bulgarian pediatric nurses. Monica, we will miss you so much! But the ripple effects of all your teachings will live on forever...
