“ How can I start, I've only known Ms. miller for a few months. She helped my son find the best pathology therapist while working in early intervention. I haven't met other early intervention workers but I'm my eyes she was the best, Anytime we schedule a zoom call we would enter in the virtual call and smile from ear to ear, ask one another immediately how we were doing. She dropped toys off for my son for Christmas ugh she was very welcoming and warm hearted. Very pure soul. You'll always be remembered Ms. Miller thank you so much for being you and being the phenomenal women you are! My family and I send our regards and condolences to her family love you Ms miller from me and Kaleb 🙏

“ My sincere condolences to Amys family, friends and coworkers. I never had the pleasure of meeting Amy in person, just over zoom calls for Early Intervention. She was always reliable, efficient and a joy. The families Amy supported were very fortunate to have her in their lives. Amy left Service Coordination for a while and came back, I was so happy to see her again. I will miss our virtual meetings together and her beautiful contagious smile.

“ I had the pleasure of getting to know Amy over the last year as we both worked together. She truly had a smile that could brighten up a room. I am grateful to have known her. She inspires me to be the best advocate I can be to our Early Intervention case load. She was the epitome of kindness and passion. Mr. and Mrs. Miller, my thoughts are with you both during this difficult time. May God's love and light give you strength.

“ Amy was a beautiful soul who impacted so many lives in more ways than she will ever know.
Mr. and Mrs. Miller, please take great pride in the amazing human being that you shared with us; very well done!

Amy's smile was infectious and brought great joy into any space which she occupied. She was dedicated and hard working!
Her commitment to her chosen field of work was clearly seen in the dignity in which she approached her role, her focus and how immaculately she handled each of her assigned task. It was seen in the work she performed on behalf of vulnerable children and their families.

Amy loss leaves a void that will not be filled. I find comfort however that her legacy will continue in the lives of so many who she touched.

Today I pray that she is at peace in the arms of a loving God!

Well done, Amy, take your rest... Know that you were loved and will never be forgotten!

Amy you are in the loving arms of our Lord and have gained your angel wings. Amy you were an angel to many, your laughter and presence brought healing to anyone you came in contact with, this I know personally.

Mr & Mrs Miller thank you for sharing your wonderfully created daughter with us, she was a blessing to many. I can speak on a personal level that she was my number one cheerleader for my cakes. Her laughter so contagious that when she was not there is was noticeable and she was missed.

Amy was truly an amazing young lady, vibrant, and loved life. Her time on this Earth was not in vain, she had purpose. R.I.P dear Amy, you will be missed dearly.

I had the pleasure of working with Amy for several years in Early Intervention. I always looked forward to our days together. She was so full of life, always with a bright smile or hearty laugh. She was also extremely sharp, catching on to the job like she had done it for years. She never had a complaint, or a negative word to say about anyone, or any situation, which is rare in their world. I am not surprised to see how many people she touched in her life as she just made everything and everyone better. A pure soul in this world. You will be truly missed!!! Lori N R. -former coworker
