“ To Garrett's entire family- We were tremendously saddened to belatedly learn of Garry's passing. We knew him as a fellow student at PSU and we all shared many a pitcher of beer together at the Phyrst! He was an amazing friend to us all. Many, many laughs. We will always remember him that way in the halcyon days of our youth. We all knew he would go on to tremendous accomplishments. He was always a gentleman - who looked like Omar Sharif. Blessings to you all. We hope his passing was peaceful and hope to see him again one day in heaven. Sincerely, Karen, Doris, Patter, and Ellen.

“ Gary will be missed. From knowing him personally to working with him professionally, I know he was a great husband, father, uncle, and chemist.

“ Donna & Matt,

I'm so sorry for you loss. I'll always remember how fun Garry was when I was little; letting my climb all over him and tossing me around at the townhouse on Westerly Parkway. He'll certainly be missed.

“ Dear Donna and Matt -

You know how deeply we share your loss. Garry has been part of our family for more than 40 years. To say that he will be missed is the understatement of all time! Over the years, we are happy to say that we had more laughs than sorrows, but the last four years have been awfully hard. Typically, Garry never gave in to sorrow or self-pity. He was a model of courage and determination, more concerned for how his illness affected you than the toll it was taking on him. Garry leaves not only a legacy of love to his family, but one of contribution to humanity that few can claim. His work on battling AIDS as a research chemist probably has saved lives that we will never know about. He lives on in our hearts: Garry, Foss, Eberhardt, all three in one much beloved cousin-in-law!

With love and prayers,

Jeanne and Richard
