“ I worked for Jean in the 1980's as a courier in the x-ray department. This was my first office environment type job after graduating high school. Because of my exposure to computers within the Cat scan truck outside I went on to become a Business Intelligence Systems Analysis specializing in massive amount of data. Building complicated mathematical reports and dashboards. Thank you Jean for all the opportunities

“ Jean was a Meals on Wheels volunteer and that is how I became acquainted with her. She was devoted to our clients and a staunch supporter of the program. The volunteers and clients will all miss her very much and I will miss the emails she so often sent offering thanks and encouragement. My deepest condolences to her family and especially to her dear friend Jan. She was very special. Linda Keenan
