“ *The greatest man i have ever met. Thank you for everything dad. You taught me everything i know from how to fix something with tools to how to become a better person and man. I hope i can become anywhere close to the wonderful person you were. You brought light to all situations even when they were hard or bad. You loved me and mom unconditionally and i thank you for everything. I cant express how much I miss you dad. I love you so much... This is still not real to me and I am at a lack of words because no words can describe what you did and meant to me. I love you dad. I wish i could write more but it is impossible to write all the good about you; there isnt enough words to describe a man like you...*

*It is really tough to think of the world without him. I will never forget the first time I walked through the doors of the Colleeville Sears Hardware while interviewing with Dave Feerst for the assistant store manager position & seeing Lou for the first time. I never thought I stood a chance at earning his respect much less calling him a friend and a mentor. Whether it was doing planograms with him or helping bring your new fridge through the front door having to half disassemble it to do so, he was the type of man that you knew would bend over backwards for you & you would absolutely do anything for him too. I can still see him sitting in the Monte Carlo outside the building listening to the radio while smoking on break or parked at Wawa watching the world go by before work. I have a feeling Walt was waiting for Lou...so they could yap at eachother about who's car seats heated their butts the best.*

*The world lost a great man. Peg, Lou & family, my thoughts & prayers are with you all at this point.*
