“ It saddened me deeply to discover you are not embodied. But as someone who knew you briefly, you most certainly left behind a legacy of love and service to others. My prayers to your family as they are most likely still grieving their tremendous loss. Love & Light to you, Polly.

“ I first met Polly in college, approximately 35 years ago when we were Audiology students together at the University of Tennessee. We both landed in Philadelphia and were roommates and co-workers. We have been friends all these years, sharing each other's big events and lots of fun outings with Vince and my husband. Polly had an inner strength and charisma that drew people to her. She was a beautiful person inside and out, fun-loving, smart, caring and always reached out to her friends and family. I am so grateful for the opportunity to have known her all these years. She showed tremendous courage and dignity to the end. I am so grateful for the opportunity to have known her all these years She will be deeply missed.
