“ Recently found that Pete had passed, he lived on Lincoln ave in Endicott and I lived on Watson Blvd in Endwell, we both went to Broome Tech and then onto Tri-State College in Indiana and graduated as electrical engineers -- believe he initially worked in Cuba, NY and I went to work at the steel mills in Cleveland --we were friends that separated after graduation -- Pete was a great guy who will be missed by all who knew him

“ To the Family, We are always saddened by the passing of our dear loved one. The time we have with them is never enough. Please keep in your hearts and minds the wonderful joy and happiness they brought to your lives. Even though it is hard for us to imagine the void in our lives be assured of this period as resting time for them. Hope is given to us through the scriptures that this enemy called "Death" will soon be done away with. (1 Cor. 15:26) Not only will death be no more, neither will sickness, pain and sorrow be anymore. (Rev. 21:3-4) God has said "He is making all things new". My prayers are with you all. “ I first met Pete in August of 1980, when he worked as a substation engineer for Niagara Mohawk and I was a new sales engineer. He was a great guy easy to work with very dedicated to his family, trains, basketball and to his work. I remember that Pete lived in Syracuse, but most weekends would go to Binghampton to visit his mom, do errands, and go to high school basketball games. We would occassionally go to lunch together or to SU football or basketball games. With the cutbacks at Niagara Mohawk, we were fortunate to be able to hire Pete to work for ABB in an inside sales position, where his engineering knowledge and expertice helped us with sales to all the upstate NY utilities. He was a great guy and will be missed.
