“ *I got to say something about my dad, he was truly one of a kind. He got me interested in muscle cars growing up, I thought I knew every card just by the way that car started on the engine sounded. There was always always tons of love pouring out of that man's body for Tina and I growing up.. his love of animals was huge!! I thank God for the 54 years I was able to spend with him before he died... He taught me a lot about self, me, what love really is and what it's not. I miss you so much Dad. I pray you're at peace and know that I will always always treasure every life lesson you ever show me. Thank you for the love of cars, Dad. I think of the song leader of the band by Dan fogelberg every time I look at my dad*
