“ *Phyllis, I am so sorry to hear that Bill has passed. I worked with him for many years at Superior, Bill was my leadperson on the special shape bench, he a great person and taught me all the things that I needed to know for the day he retired from the Tube. Bill was always kind to his co workers and had many stories to tell. He loved you dearly and enjoyed your many travels to Hawaii ( I have yet to get to maui ),when I do, I will go on a cruise because I remember Bill saying that is the way to go. My heart felt condolences go out to you and your family. May God Bless you through this time of sorrow.*

“ *My deepest sympathy goes out to all of Bill's family and friends. I remember Bill as a kind gentle, sharing man who I worked with at Superior Tube Co. He would take the new employees under his wing and teach them the all they needed to know to survive in a manufacturing environment. A lot of his knowledge is still in use today. If you were a little light before payday he was there to help you out. He could answer any question you might have whether it was about work or life. I particularly enjoyed the time we spent after work with other coworkers solving the problems of the world. He spoke often about and adored his wife Phyllis who he affectionately referred to as The Nurse. I'm sure I speak for all the old timers here at the Tube when I say he is now and always will be missed.*
